SUBJECT: Request for modification to Design, Installation and Product Specification Document for LLCCP

RECOMMENDATION:

It is recommended that the City Council adopt the revised LLCCP Design, Installation and Product Specification.

BACKGROUND:

On December 16, 2003, the City Council adopted and approved the Loma Linda Connected Community Program, including the design, installation and product specifications. The Program requirements have been included in Conditions of Approval for all new projects. This categorical exemption class applies to the construction of limited new facilities structures that support water, sewer, electrical, gas or other types of utilities or utility extensions.
